**COMMENTS:**

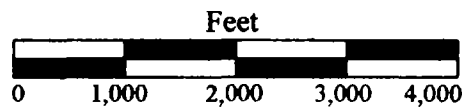

**Chris,**

Here are the figures we spoke about. They are "Figure 2" and "Attachment 4" to the report "CERCLA Preliminary Assessment, East Gadsden Development Project," May 19, 2000. ADEM prepared the report and EPA approved it on 6-12-2000. A "NFRAP" designation was applied (by us, EPA) to the site. Keep in mind the NFRAP does not mean there was no contamination at the site; our decision form (also attached here) indicates some groundwater impact was present at the site.

Call me if I can be of further assistance.

# REMEDIAL SITE ASSESSMENT DECISION - EPA REGION IV

Page 1 of 1

EPA ID: ALSFN0407038 Site Name: EAST GADSDEN DEVELOPMENT PROJECT

State ID:

Alias Site Names:

City: GADSDEN

County or Parish: ETOWAH

State: AL

Refer to Report Dated:

Report Type: PRELIMINARY ASSESSMENT 001

Report Developed by: STATE

69469

## DECISION:

☒ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:

☒ 1a. Site does not qualify for further remedial site assessment under CERCLA (No Further Remedial Action Planned - NFRAP)

☐ 1b. Site may qualify for action, but is deferred to:

☐ 2. Further Assessment Needed Under CERCLA:

2a. Priority: ☐ Higher ☐ Lower

2b. Other: (recommended action) NFRAP (No Further Remedial Action Planned)

## DISCUSSION/RATIONALE:

Some documented groundwater contamination. No public groundwater wells within 4 mile radius. No surface water intakes within 15 mile downstream target range. Construction plans include backfilling the site (5 - 15 feet) and paving over fill.

Site Decision Made by: ANNIE M. GODFREY
